Personal Information

Nam	:	Jhun Daverey F. Parol
Birthdate	:	May 12, 2000
Status	:	Single
Address	:	Blk 1-B Lot 7 Spring Valley Marigold Street, Buhangin, Davao City, PH-8000

Profile

I have experience in IT support, system administration, and network administration, handling various technical responsibilities. My expertise includes troubleshooting hardware and software issues, ensuring seamless operations across systems. I have worked with network administration, including basic configurations, networking setups, and Active Directory management.

I worked full-time in IT while studying for my BSIT, which gave me real, hands-on experience early on. I handled technical support, managed Active Directory, set up networks, configured routers and firewalls, and worked with VoIP systems like 3CX and MicroSIP. At the same time, I started building projects—doing full-stack web and mobile app development using HTML, CSS, JavaScript, PHP, React.js, Next.js, and TypeScript, along with some UI/UX design work. I've also been involved in CCTV installations, basic server-side tasks, CRM operations with QA/QC, web app testing, and even small prototype robotics projects. Balancing work and school wasn't easy, but it helped me become more adaptable, resourceful, and confident working in real-world IT environments.
